Nicole / Charles / Michael -

Following up on EPA's request for a tax parcel map :

I was incorrect in my statement earlier this week. The Trust did *not* perform a survey of the property. We have been utilizing tax parcel documentation previously compiled by others with a simple verification via the City's GIS web portal. Seeing as this information will be required, the Trust will be retaining a local land surveyor and will prepare a new set of figures for our collective use.

We will share a project schedule with EPA once established.

If I can answer any questions in the interim, please let me know.

Thank you,

Good afternoon.

Wanted to send a brief email thanking EPA for the time yesterday to discuss the proposed plan. Mike (Tetra Tech) will be following-up to this email with brief meeting notes for our files.

Thank you,
